

Environmental, Health and Safety (EHS) Policy

GlobalFoundries and its subsidiaries are committed to achieving excellence in our Environmental, Health and Safety (EHS) management systems. To do so, our leadership and employees embrace and adhere to the following principles:

- **Journey to Zero**
We have embarked on a journey to achieve zero occupational injuries or illnesses, and minimize environmental and climate related impacts from our operations through pollution prevention and resource conservation. Through our *Journey to Zero* we are committed to providing safe and healthy work conditions which prevent work-related injuries and illnesses. We are committed to the elimination of hazards and reduction of environmental and safety risks, utilizing the principles of behavior-based safety and a hierarchy of risk-mitigation controls.
- **Continual Improvement**
We are committed to continual improvement of our EHS management systems to enhance environmental and safety performance. We collaborate with our customers, suppliers, partners, academic and governmental bodies, and industry consortia to drive EHS improvement in semiconductor manufacturing technology.
- **Beyond Compliance**
We implement consistent and rigorous EHS policies, standards and management systems supported by performance metrics, external reporting and compliance assurance. These are designed to protect the environment; to protect the safety, health and well-being of our employees, contractors and communities; and to ensure that we meet or exceed regulatory compliance obligations, customer requirements and other voluntary practices to which we subscribe.
- **Customer Focus**
As a provider of manufacturing services, we strive to enable our customers to verify their expectations for supply chain EHS performance are met. We will measure and report relevant EHS data to our customers, allowing them to assess and reduce product life-cycle impacts.
- **Consultation and Participation**
We strive to build and maintain an open and productive dialogue with our stakeholders. We ensure these principles by providing appropriate EHS training, communication and engagement with our employees and contractors, enabling them to own their roles and responsibilities and participate in our EHS management systems.
